Heart Healthy Recipe

Goal Statement:

• **Value your time**

We make every effort to ensure that your appointments are scheduled to work best for YOU and that WE are on time.

• **Get to Know You**

We care about you as a person, not just a PT

• **Communicate Clearly**

We always keep you and your physician informed of the progress with your POC

• **Provide a Comfortable Atmosphere**

You can count on a clean and supportive environment each time you visit

Contest for past and present patients only.

WHAT IS DIRECT ACCESS?

“You must be the change you wish to see in the world”

– Gandhi

Change happens frequently in the healthcare world, and in this instance, it's a good change.

You may have heard the term “direct access” before, but it's important to know how it applies to you and your health! Direct access means the removal of the physician referral mandated by state law to access Physical Therapists' services for evaluation and treatment. Utah is one of 18 states that have unrestricted access or limitations absent of a Physician referral. This puts you back in control of your health!

Of course, there are restrictions when it comes to Medicare, Tricare and a Worker's Comp injury. For Medicare patients, a physical therapist must develop a “plan of care” and a physician must certify or sign off on that plan of care within 30 days of the initial evaluation. It can be difficult to get the physician to sign off, which is why it is better to get the referral for Medicare patients ahead of time. Tricare and worker's comp does require referrals and authorizations prior to physical therapy.

If you feel like you need physical therapy and are unsure about your insurance requirements, give us a call and one of our front desk coordinators will be more than happy to check on your insurance benefits.

INTRODUCING AMANDA

Amanda graduated from the Physical Therapist Assistant (PTA) Program at Salt Lake Community College in 2016, and has joined our team at Rock Run Physical Therapy. She has experience in outpatient, hospital, and rehabilitation settings. Amanda was inspired to become a PTA after she was injured in a rock climbing accident and had to spend a year doing physical therapy to recover. Through this experience, she realized being able to move and function normally is an essential element to happiness and enjoying a good quality life. As a PTA, Amanda hopes to help patients achieve their maximum mobility and return to doing the things they enjoy. She aspires to continue her education in advanced treatments and knowledge to help her physical therapy patients.

Outside of work, Amanda enjoys swimming, boating, camping, movies, and spending time with family and friends.

Welcome to the team Amanda!

PATIENT TESTIMONIAL

Joann came to us late last year with multiple complaints, but her biggest issue at the time was her shoulders. Both of them were really painful, weak and she couldn't raise her arms to do her hair or work in her garden. "I do like to garden," she says.

We were able to quickly get her shoulders strong and pain free again and then we went to work on her balance. Joann's balance was not very good and she said, "I felt uneasy in bad rocky places." We worked with her on strengthening her legs and better balance on various surfaces. Now she is walking better and has more confidence.

Here is what she said about us here at Rock Run:
"Coming to Rock Run helped so much with all the activities that I do and I really appreciate all the help that I received!"

Way to go Joann!

ADVENTURES OF A FRONT DESK COORDINATOR

We have a new record everyone! We probably shouldn't be so happy about the amount of time we spend on hold, but sometimes it just gets to be too funny! In the last issue we shared the sometimes crazy side of being a front desk coordinator and how we spend a lot of time "on hold". Our previous record was a total wait time of 3 Hrs and 7 min and since our last issue came out, we smashed that new record with a whopping time of 3 Hrs and 28 min on hold! It comes with the job and we do it because we love our patients! We'll keep you posted, but hopefully we don't have to include a new record next time.

PHOTO CONTEST WINNER

Congratulations to Linda Smith, this issue's winner of the Photo contest! Linda took her copy of the Rock Run Revue to Tuacahn Amphitheater in St. George, Utah. She also won a \$50.00 gift certificate!

The contest will go again for the next issue. Remember the rules:

- Take a picture with your Rock Run Revue somewhere, anywhere... on vacation, at a ball game, in your backyard, with your favorite animal, etc...
- Submit the picture with your name via email at photo@rockrunpt.com or text it to 801-698-4156
- Cross your fingers! It's that easy!

“ROCKY” THE NEW MASCOT

Meet Rock Run Physical Therapy's new mascot, "Rocky". Rocky joined our team in February and is a Blue Horned Beta fish. Maddie has been begging Brandon to let us get a mascot and he would only agree to a fish. He is located at our Syracuse office and enjoys swimming all day long, floating, eating his fish food and blowing bubbles!

HEART HEALTHY RECIPE

With February being heart awareness month, we decided to include a “heart healthy” recipe. Most days people are in a rush to get out the door and end up skipping breakfast or grabbing something unhealthy because it’s easy. Carve out a few extra minutes in the morning and try this delicious egg and cheese wrap that tastes great and is good for the ol’ ticker.

Ingredients

- 1 fat-free whole-wheat flour tortilla (warm)
- 1/4 ripe avocado
- 2 Tbsp tomatoes (diced)
- 1 large egg white (scrambled)
- 1 oz Swiss cheese (low-fat)
- freshly-ground pepper (to taste)

Directions

1. Heat nonstick skillet over medium-high heat.
2. Add diced tomatoe and cook for 1 minute.
3. Add egg white to the skillet and cook, stirring, until cooked through, 4 minutes. Season with black pepper.
4. Spread avocado in center of tortilla. Place egg mixture on top of avocado and sprinkle with cheese.
5. Fold tortilla burrito style and slice in half.
